

Extraña Formacion Nubosa sobre Chile Dia antes de Terremoto

Adolfo Araya

He acá una extraña formación Nubosa u OVNI? sobre una parte de Chile el día anterior al Terremoto 8.8... ¿Coincidencia u algo más?

http://www.youtube.com/watch?v=4_iK1kG4TCo&

=====

Demás esta recalcar que de nuevo se produjo algo prácticamente No Natural o no de la Naturaleza cuando ocurrió el Terremoto porque todos los temblores siguientes estuvieron EXACTAMENTE A UNA PROFUNDIDAD de 10.0 CMS sin importar el lugar del evento y ESO señala claramente una REPETICION de lo que ocurrió antes en HAITI donde los Temblores estuvieron Todos a una Profundidad de 10.0 CMS...Es decir... HAARP en pleno funcionamiento en Haití como ya lo envié antes en sus gráficos tomados desde el Japón...pero que ahora no se ha sabido nada de Japón con respecto al terremoto chileno...en todo caso...he acá los Datos de estos últimos días seguidos al terremoto en Chile...vean DEPTH = Profundidad...y Eso señores no es Natural ni aquí ni en ninguna parte...

Latest Earthquakes M5.0+ in the World - Past 7 days

Latest Earthquakes Magnitude 5.0 and Greater in the World - Last 7 days

[Versión en Español](#)

Magnitude 5 and greater earthquakes located by the USGS and [contributing networks](#) in the last week (168 hours). Magnitudes 6 and above are in red. (Some early events may be obscured by later ones on the maps.)

The most recent earthquakes are at the top of the list. Times are in [Coordinated Universal Time \(UTC\)](#). Click on the word "map" to see a ten-degree tall map displaying the earthquake. Click on an event's "DATE" to get a detailed report.
