

# CROP CIRCLES IN POLAND - Report

By Robert K. Lesniakiewicz (CBZA)

I'd like to introduce myself to my readers. My name is **Robert Konstanty Lesniakiewicz** and I am 50 years old Polish Border Guard Captain Ret. and civil engineer of forestry. I am also a member of the Center for the Anomalous Phenomena Researches (CBZA) of Krakow ( Cracow ). I have been interested in ufology since Sept. 13<sup>th</sup>, 1973, when I saw the UFO first time. My observations and sightings I described in several books such like: *UFO nad granica (UFOs Above a Borderland)* Cracow 2000; *WUNDERLAND: Pozaziemskie technologie Trzeciej Rzeszy (WUNDERLAND: Extraterrestrial Technologies of the Third Reich)* Usti nad Labem 1998 and Warsaw 2001 (commonly with my Slovakian friend **Dr. Milos Jesensky Ph.D.** of Krasno nad Kysucou, Slovakia) and *Projekt Tatry (Project Tatra Mts.)* Cracow 2002 and many articles in the *Nieznany Swiat* magazine and others, where I analyzed the UFO-phenomenon from various points of view. Finally I came to my last conclusion that UFOs are the newest but Earthian technologies from the secret labs of the Superpowers or from the further future. Or the both possibilities together...

A phenomenon of the Crop Circles (CCs) has been known in Europe for many years. Firstly, it was mentioned by old chronicles, which had been written at the end of the 15<sup>th</sup> and a beginning of the 16<sup>th</sup> centuries. In Poland that phenomenon was almost unknown till the 1990s. However there were people, who had been interested in that problem. They were waiting for the first CCs in Poland , and their hopes came true in July 1998. The first CC was found on a wheat fields near a town of Myslenice – at the Polanka village.

That pictogram was made with four elements – four CCs: one big and three lesser ones. It was researched by famous Polish UFO-researcher and author of some books and several hundreds articles, editor of the *Wizje Peryferyjne* and *Czas UFO* magazines, co-editor of the quarterly *UFO* magazine, a collaborator of the *Nieznany Swiat* monthly magazine and others – Prof. **Bronislaw Rzepecki** and me. The pictogram – called by us like “agroformation(s)” or “agrosymbol(s)” (AS) – was made nearby the older capital of Poland – Cracow . Now it is the cultural and science center of Poland . Moreover we got to know about two others AS, but we were not in the able to research them, because it was too late and they had been plugged by villagers.

We had to wait for the next AS almost the whole year. The second pictogram appeared in Poland itself in a vicinity of the small village of Pigza , in July 1998. And like the AS Polanka 1998, it was composed from 4 CCs – one big and three lesser ones. They were also thrown almost 500 meters far from the main CC like in Polanka. The AS was researched by team of ufologists: Prof. Bronislaw Rzepecki, **Fire Dept. Capt. Ret. Stanislaw Barski B.T.**, and me. In that AS we first time sensed the strange psychical and somatic effect of the CC's interaction with the people and animals.

In the next year 2000, we had in Poland 7 AS, which had appeared themselves in various part of our country. In that year appeared the first AS in Wylatowo village. Wylatowo is a small village placed nearby the eldest cultural center and the first capital of Poland – Gniezno . That land was inhabited by the Polanie tribe – the oldest and the most power one in Poland . Those people united the Polish tribes into one state almost 2000 years ago. The Christian history of Poland started in 966, when the a Prince of Poland - Mieszko I of the Piast dynasty was baptized and married himself with the Czech Princess Dobrava. Those important events took their places also in a vicinity of Wylatowo. Those district is known also as the Polish Avalon, where the oldest legends mixing themselves with reality and history of my country and my nation.

This article I wrote in 2002 and it shows us how seriously we treated the AS problem:

### **2001: ICE CIRCLES AND CROP PICTOGRAMS IN POLAND**

*by Robert K. Leśniakiewicz*

This is my short report on the Polish ice and crop circles and pictograms, which appeared on an area of our country in the first year of the New Century and New Millennium. That topic became to be wide and well known in Poland . The Polish media gave a lot of information for the public. That element of the case disturbed us and our researches, however on the other hand, we have got a lot of new information, reports, relations and so on saying about those phenomena. And this is my report, as below:

[2IC<sup>III</sup> Rosnowo Lake 2001](#)

The new year 2001 in Poland started with one strange event, which had occurred itself in the Feb. 26<sup>th</sup>, when one woman and members of her family had noticed something odd on a surface of the Rosnowo lake. The Rosnowo lake lies on 16°21' E and 54°09' N, circa about 20 km on S-SE on Koszalin - see a map.

There were two strange and very regular circles of the fresh frozen water on its surface, which had been covered with the fresh layer of the snow. The bigger IC had 5 m in its diameter, and another one measured only 0.5 m . Unfortunately, the witnesses did not photographed that phenomenon. I was gaining information about that, two days after I was informed by my Swedish friend **Mr. Clas Svahn** about quite the same sort of phenomenon - the ICs, which had been observed in Sweden , Norway and Finland . As you can see, that phenomenon did not omit Poland too. Now that area is under permanent observation by members of the Megalite Researchers Club in Rosnowo. I must add, that there are a sanctuary of the alles stones from behind the Ice Age.

### AS Wylatowo 2001-I

The first crop pictogram on the wheat field appeared itself in the night 26/27 June 2001 in Wylatowo - 17°55' E and 52°36' N. Wylatowo is a place, where the big "Celtic Cross" appeared last year. Now, there appeared a big pictogram made from 9 circles and several patches. It looked like the cabbalistic "Tree of Life", but without two Sephirots: Malkut and Daath ones.

Witnesses stated that on the night, nearby 00:00 hrs some big BOLs appeared above that wheat field. The pictogram was found in the morning on Jun. 27<sup>th</sup>. The pictogram was 60 m long. The local farmers and peasants informed the UFO-researchers immediately, and in the morning the pictogram was examined by a team headed by **Mr. Michał Zawadzki** of Warsaw and also **Mr. Stanisław Barski** of Szpetal Górny. Those researchers did not discovered any anomalous phenomena inside of the AS, however the Wylatowo inhabitants stated that in the night they had had trouble with the radio and TV receiving. They were caused by UFOs, which flew above their fields. The TVP-2<sup>[2]</sup> made a special program from a site of that AS. The all people waited for the next pictogram. It appeared in a few days after...

### AS Jugowa 2001

Another crop pictogram appeared itself in circumstances of the small village of Jugowa in the Lower Silesia region - 16°18' E and 50°54' N - in the night 11/12 July

2001. The local inhabitants informed the media about its existence and in the same day it has been shown in the TVP-1 news program *Teleexpress*.

On Jul. 13<sup>th</sup> I organized an expedition to Jugowa. My team was completed with one geologist: **Mr. Jerzy Strzeja** of Mikołów, cameraman **Mr. Marian Ksiązek** of Tychy , and ufologists: **Mr. Tomasz Niesporek** of Katowice , **Mr. Grzegorz Domanski & Mr. Damian Trela** - the both of Legnica and me.

In Jugowa we found a pictogram made with 6 CC. Its shape was similar to the irregular cross. The all of them had the CCW direct. The 7<sup>th</sup> circle was made by local peasants, who had wanted to know, whether it had been possible to make such circle by human's hands and feet. It was quite different from a rest of the CC of that CP...

Like as the Wylatowo researchers, we did not discovered any anomalous phenomena in the CP. However, another team of ufologists, headed by **Mr. Lukasz Tetlak** of Kłodzko and **Miss Maja Kowalska** of Mieroszów, discovered an anomalous soil acidity in the biggest CC.

The whole CP was 18 m long and 15 m wide. The local inhabitants did not notice any UFOs above that localization and any fadings in the radio and TV broadcasts. That pictogram was not so spectacular as the Wylatowo one.

Personally, I am convinced that that CP was nothing more than a sign-post, which showed us four other points on a Earth's surface: Rosnowo Lake , Wylatowo, Laka and... some point, which lies somewhere in the German territory - see at map of the connections among the AS.

### AS Laka 2001

The little village of Laka lies in the SE corner of Poland in the Podkarpacie region, on 21°32' E and 50°04' N. The AS appeared there also in the night 11/12 July 2001. In that night, two witness saw strange lights had floated over the wheat field. 1,5 km far from that field stays the Electric Power Plant Zaleze at Rzeszow , which can attract the UFOs. Other peasants and farmers heard strange voices, which they compared with the noise made by the electric razor blade.

In the next day, some people of the Laka village found the cross-like AS.

On Jul. 13<sup>th</sup> **Mr. Arkadiusz Miazga** of Ropczyce with **Mr. Adam Mysliwiec** of Rzeszow went to the Laka to see and research the AS. It was 21.20 m long and it consisted 6 CC and 3 patches in it. The biggest CC was 6.1 m in its diameter. The CP had a shape of the regular cross placed almost ideally on the South-North straight line. The all CC had the CW direct.

The researchers discovered an abnormal low level of the radioactivity in the pictogram. The local background was almost 24.8  $\mu\text{R}/\text{h}$ , but inside of the pictogram there were mere 11-16  $\mu\text{R}/\text{h}$ ! Was the UFO decontaminated the soil from the natural and unnatural (after the Chernobyl atomic power plant catastrophe) radioactivity!?!...

It is a very important to add, that the all CCs found in Poland had not been circular in their form, but light oval in it. I think that it is a clear evidence for that, that those all circles were made by objects, which had operated in the air, on a low altitude over fields. The all CCs of the AS were made in the same time together.

The Łąka pictogram was researched also by **Mr. Bronisław Rzepecki** and his team of Cracow, on Jul. 15<sup>th</sup>.

### **CP Wylatowo 2001-II**

In the night 11/12 July 2001, the Wylatowo inhabitants registered the trouble with their radio and TV sets. In the next day - Jul. 12<sup>th</sup> - they found the CP on the wheat field. It was made from two CCs: the bigger one had a ring of the staying wheat inside, and the smaller one partially was placed on a field of the younger green crop. It was very precisely done. There were no traces of any human being.

The local people and tourists, who were coming to Wylatowo more and more frequently, started to suspect that there something strange would occur, and they were right...

### **AS Wylatowo 2001-III-A and AS Wylatowo-III-B**

... because in the night 24/25 July 2001 there were made two CPs onto the wheat field. One of them - CP Wylatowo 2001-III-A - was named 'The Host'. It was a very symmetrical system of the three CCs joined with two arcs, which did a picture very similar to the cup. The another pictogram - the CP Wylatowo 2001-III-B - was a system of the three CCs lying in the straight line and touching to each others with their sides. Inside of the all those CCs, the researchers found the magnetic anomalous phenomena. The compass needle turned 10° to West inside of the each CC!

The both CPs were made by BOL, which had appeared above the field and illuminated the area with the beams of the strong, color light. The lights were very strong and in the nearest houses was a daylight in a midnight...

One Wylatowo inhabitant was literally chased by the bright BOL, and another saw as the BOL made the clouds to spread on sides and he could see the stars in the night sky through the 500 m diameter hole in the clouds... The all events were very similar to the **Steven Spielberg** famous movie *Close Encounters of the Third Kind!*...

### [Wylatowo - the Polish Stonehenge , Avalon and Camelot?](#)

What does it all mean? During his investigations in Wylatowo, one of researchers was given an old ax by one of the Wylatowo inhabitant. That ax counts no less than 5,000 years and it indicates that there had been a site of the pagan religion, an old worship center, pre-Christian one.

According to old legends - the field, where the pictograms appeared, has been haunted for many, many years. Parents have forbidden their children to go there, because: 'there very often the lights appear, which take and kidnap people, especially young ones...'

Personally I think (and a lot of our circle researchers and ufologists) that the all those phenomena are an attempt of the wide contact with the Aliens or another civilization living on the Earth. In my opinion (which is shared by several experts on various scientific disciplines) the Someones had tried to warn us of the last flood, which literally washed the southern part of Poland in the 3<sup>rd</sup> decade of the July. Form the other hand, nobody could believe in that warning and it was completely ignored by scientists (especially orthodox ones) and authorities (especially by bureaucrats). That mistake cost us a lot of money and several human lives...

The all facts show to us that Someone Unknown wants to give us a signal or message. Perhaps a name of the village - Wylatowo - has its secret meaning. "It can be translated to English as 'place, where something may take-off' - or... quite contrary to it. But the main question is: why?" – one researcher wrote it in his article for the *Nieznany Świat* magazine. Moreover he stated, that the all Wylatowo AS are a kind of the puzzle or the IQ test, which should be solved by people. He dissolved it and is going to present Them his solution in 2002.

In 2002, we'd like to put forward a big all-Poland program of the crop circle investigations. Moreover, we shall do a **Polish Center for Extraterrestrial and Ufological Studies** in Wylatowo. Now we need **a help in any form**, because off a breakdown of the financial state of Poland . I think that the Wylatowo events are too important to leave it free. There are too much witnesses, who saw and sensed the Aliens' presence. We hope, there will be more and more strange events in that area, where I can compare with the ancient Camelot and Avalon from the British legend of the King Arthur and his knights. I think that every country has its own place, where have been roots of its own nation, who lives there. Japanese have their saint mountain

Fuji-san, Englishmen have their Camelot, we have our Wylatowo - a place lying nearby the first capital of Poland - the Gniezno town.

Jordanów, Aug. 27<sup>th</sup>, 2001

The situation developed itself like in the label below:

## **POLISH CROP CIRCLES ('AGROSYMBOLS') INDEX**

### **Event description:**

**AC** – ‘agrosymbols’ – simple, separate circles;  
**AP** – ‘agrosymbols - pictograms, complicated shapes;

### **Research status:**

**RP** – Reported: crop circles were only reported by witnesses or media, no field investigation;

**FD** – Found: crop circles found, only basic information and photos, no detailed field investigation;

**IV** – Investigated: crop circles fully investigated by CBUFOiZA teams or their co-workers.

### Credibility rating:

**AN** – Anomalous: anomalous effects detected;

**N** – Normal: investigation did not show any visible traces of human activity;  
uncertain origin of crop circle;

**PF** – Possibly false: very high probability of crop circles being made by human;

**DF** – Definitely false crop circles; false information about the event.

As you can see from this label – the most of the AS are concentrated in the Wylatowo region, which is regarded as a special place in Poland .

The situation in the present year is not so different from the that one from the previous year. Another label shows us the situation in Poland and two neighbors countries: Slovakia and Czech Republic, where the AS appeared on a beginning 1990s but their number is lower than in Poland now.

Year	Czech Republic	Slovakia
1990	4	
1991		
1992	4	1
1993	14	
1994	23	
1995	35	
1996	45+3 (Fsd)	4

1997	29	1
1998	29	4
1999	64	1+1 (Fsd)
2000	31+2 (Fsd)	
2001	10	
2002	7+1 (Fsd)	1
2003	8+2 (Fsd)	
2004	10	
To 2005-07-25	1	

By Robert K. Leśniakiewicz ©

Color blue means the cases, which were not researched but registered only. The (Fsd) means falsed. Unfortunately, many AS were made by local peasants to get some money from tourists and researchers. We esteem that the 130 of them were man-made and only 10 were made by Aliens or unknown forces. Another 10 is very difficult to recognize, because they were destroyed by crowds of tourists and local peasants.

There were also two Crop Circle Congress, which were held in Wroclaw (Vratislavia). Personally I took a part in the II<sup>nd</sup> Crop Circle Congress and I'd like to present for Readers our article made by my sister **Wiktoria Lesniakiewicz B.A.** and me in 2003:

### The 2<sup>nd</sup> All-Poland Forum of the Crop Circles Phenomenon

(Wroclaw, Oct. 18<sup>th</sup>, 2003)

by Robert K. Lesniakiewicz & Wiktoria Lesniakiewicz

The 2<sup>nd</sup> *All-Poland Forum of the Crop Circles Phenomenon* was held on the Saturday, Oct. 18<sup>th</sup>, 2003 in Wroclaw - a main city of the Lower Silesia, Poland . That conference was organized by famous Vratislavian animator and journalist **Mr. Janusz Zagorski** and his team of the Forum of the New Civilization – the FNC. This is a short report on that main event in our country.

The *Forum* was opened punctually at 14:00 hrs., because the weather conditions in that sunny and beautiful, autumnal day had been very good for travels and the all lecturers and public had been in the able to come at the time. We came to Wroclaw via Olesno, where we had visited our good friend and the stone-circle researcher **Ms. Elzbieta Kowalska**. We were under a nice impression of the Gold Polish Autumn and its beauty, when we traveled through the woods and forests of the Bory Stobrowskie.

The first point of the Forum program was a lecture by **Mr. Marcin Kaczmarek** (FNC), who presented to us photos of the crop pictograms, which had appeared on fields in Europe and a rest of the World in this year. The next one was the lecture by **Mr. Marcin Mioduszewski** (President of the Center for the UFO and Anomalous Phenomena Researches – CBUFOiZA), who told us about the crop pictograms also known as the agrosymbols or agroformations, which had been found beyond the village of Wylatowo . By the way – the Wylatowo village is a place, where the agroformations have been watched since 1999 non-stop in every Summer!

The third lecture by **Mr. Marcin Mizera** said about the crop pictograms of Zielonka Nowa and Lublin . **Mr. Marek Turski** (Chairman of the Fortean Phenomena Club of Lodz) spoke about the agroformations' origin. After that **Mr. Robert K. Lesniakiewicz** had a lecture on a topic of the agrosymbols, which had been found and researched in Czech Republic and Slovakia in a period 1990-2003.

In the next point the FNC computer men showed to public the multi-medial presentation on the CD entitled *The Crop Circles Phenomenon in Poland – demo version*, which is - in a fact - the first attempt to sum up the all information on the Polish researches on that field in our country.

Mr. Zagórski and **Mr. Piotr Zjawiony** (FNC) presented their VHS records of the Wylatowo village crop pictograms made from the bird's eye. There were also military planes and helicopters, which had been filmed together with UFOs! That material is a clear evidence for the military involvement into the UFOs and crop circles researches. There were also presented the videos made by **Mr. Stanislaw Barski**, who had filmed and photographed a lot of the BOLs flying above the Wylatowo fields. At the end of that point was presented a video-record of the interview with **Mrs. Nancy Talbott** (BLT Research Team Inc.), who had also visited Wylatowo and researched local pictograms.

There were also very interesting discussions and debates on the topic: *What About the Wylatowo Present?* and *What About the Wylatowo Future?* The all experts agreed that the Wylatowo phenomenon should be researched in the future together with scientists on one hand, and the contactees and radiesthetics on the other hand. The most interesting was a hypothesis called on by the science-fiction writer **Mr. Andrzej J. Krasnicki**, who suggested that those all agroformations are real Signs – in a fact – but they are for another human creatures (not men), who live beside us on our planet... This is a very interesting theory and original one, because nobody has taken seriously such possibility at all!

Moreover we met there with our friends of the FNC, CBUFOiZA, FPC, Bydgoszcz Science Fiction Club “Maskon”, and two special guests of the conference: **Mr. Jiri Kult** of Hradec Kralove and **Mr. Jan Cerny** of the UFO Club “Zablesk” of Jaromer, Czech Republic. We talked with them about our bilateral cooperation among our organizations and collaboration with the Slovakian ufologists and agroformation researchers. In that meeting took their part famous Polish ufologist and editor of the *Swiat UFO* quarterly magazine **Mr. Bronislaw Rzepecki** of Krakow.

During the discussions we got to more know about the Wylatowo artifacts – two pieces of dark stone, which one had been a fragment of the axe and another one was a part of something like a plate made of the black basalt. Those artifacts are very, very old. Their age counts thousands of years. Were they made in the Plato Atlantis lost continent some 12,000 years ago? we agreed that these things must be researched in the nearest future. [...]

Now we think that it was caused by a changing of the contact tactic – the Aliens have tried to contact with us with a telepathy – like in the Middle Ages. It is the second attempt of the strict contact with the sensitive people – especially women – who are in the able to receive Their appeals and messages with their human brains. Now, in present day, such people are not burnt on piles by the Holy Inquisition. They are closed in the mental hospitals as mentally ill persons...

With a real sadness we got to know that famous Polish ufologist **Mr. Zbigniew Blania-Bolnar** deceased two weeks ago. He was an author of a few works on the UFO topic. He was a very controversial person in the Polish ufological movement, because he edited some critical works to ufology and other esoteric sciences and para-sciences. We think that he did a good job, because such works are also necessary – they allow to estimate our own standpoints and points of view. His death is a big loss for Polish ufology.

During breaks, we made some interviews with heads of the gathering experts on UFO and agroformations. We asked them the only one question, which sounds: **What do you think about agroformations and who creates them?** We are giving to Readers their statements and opinions as follows:

**Dr. Jiri Kult** (UFO Klub “Zablesk”, Czech Republic): *I think that there are two main sorts of the agroformations: 1<sup>st</sup> ones – the man-made crop pictograms by various people aka the ‘circlemakers’ and 2<sup>nd</sup> ones – made by unknown forces. Personally I judge that they have been made by some unknown forces, which copy some kind of information and is an uninvited phenomenon. Perhaps they are made by the ETI.*

**B.C. Jan Cerny** (UFO Klub “Zablesk”, Czech Republic): *I am convicted that an author of those phenomena has been our planet – the Earth. It can be a natural phenomenon connected to the Earth, which creates itself like portraits of the saints on the window-glass. This is simply tied to the Gaia-theory.*

**B.T. Stanislaw Barski** (State Fireman Capt. Ret., ufologist, crop circles researcher, Szpetal Gorny): *In my opinion, the agroformations have ever been made by an unknown*

*INTELLIGENCE, which we can not get to know closer. Despite the fact that from year to year we know more and more about them – we still know nothing about that INTELLIGENCE at all.*

*IT makes pictograms in order to attract people to them and make various examinations on them. Moreover IT can appeal to our – human – ID and give us some messages, which can make us better – perhaps – in the Future...*

**Prof. Bronislaw Rzepecki** (ufologist, writer, editor of the *Swiat UFO* quarterly magazine, Krakow ): *That phenomenon is strictly fit to the UFO-phenomenon. They make special zones inside of the agrosymbols, where UFOs examine special kind of people, who are opened to the Contact with Them. We know that there is a special kind of energy inside of the pictograms, which increased gradually in the time of the people's visits. As it is gaining a high level, it will suddenly disappear - that means that this energy is brought from the pictogram's area by UFOs or IUFOs.*

**Mr. Marcin Mioduszeowski** (President of the CBZA, ufologist): *I think that the agrophenomenon is inducted either by Alien Intelligence or by some natural forces, which real, physical nature is quite unknown for the modern science.*

*By the way – the CE3 in the Marcelino near Szczecinek village was the hoax. We researched it and we have come to this conclusion, however there had been a UFO-landing. The UFO lost a circle trace, which is covered with mushrooms<sup>[4]</sup> now. This is well-known phenomenon from other CE2 places in Poland , such like Olsztyn at Czestochowa , Jerzmanowice or Brzesko in the southern Poland .<sup>[5]</sup>*

**B. H. Wiktoria Lesniakiewicz** (historian, ufologist, ecologist, member of the CBZA, Jordanow) – *In my own opinion, the Alien Intelligence can make agro-signs not only for human beings but another Alien life forms or EBEs as well. I am sure that we are not alone on this planet.*

*On the other hand, my brother and me think that the History is a key to understand a mystery of the agroformations. And the Time is a skeleton-key...*

**B.P. Janusz Zagorski** (editor, ufologist, animator and promotor of the *UFO Forum*, *Crop Circles Forum* and *Forum of the Unusual Inventions* meetings and conferences, a key person in the Lower Silesian cultural environment) – *There are two equal theories on the agro-signs origin. The 1<sup>st</sup> one says that they can be done by people, their technology and their wisdom. The 2<sup>nd</sup> one is the ETI-hypothesis. Personally I think that the ETI-hypothesis is very much closer to the truth. I saw, watched, filmed and photographed many UFOs above Wylatowo, and I am sure that they had not been any human vehicles at all. I think that many cosmic races stay behind the UFO-phenomenon and other strange things – like f. ex. the true agrosymbols. Please don't forget that we have a witness, who watched a process of the rising the agrosymbol under a several BOLs, which had danced above a field of wheat in Wylatowo, in 2000!*

**B.T. Marek Turski** (ufologist, Chairman of the Klub Zjawisk Forteanskich, Lodz ) – *I am sure that agroformations are made by non-earth forces and non-human*

*technologies. It is quite possible that those forces do not belong to Alien Civilizations. They can originate from our planet – from some parallel world, other dimensions of our Reality, old civilizations f. ex. Dinasuroids or Interterrans ones, and so on.*

*They are made in order to gather a great number of people and examine them. Perhaps it is a part of the mass examination our all society.*

At the end of the Forum, we formed several final conclusions:

- Agroformations are real, serious, solid things and they should be researched by ufologists in Poland and on territories of other countries;
- We should involve more and more scientists to research that problem. We need their help, devices and the newest scientific theories to solve that problem. Many scientists knows about agroformations. Many of them believes in their alien origin. And the all are frightened by their older, hardheaded and hardline-thinking colleagues and superiors. We must find them and pull'em on our side;
- Researching areas, where agrosymbols appeared themselves, we must pay attention to a history of the land, because a key to that phenomenon can stay in the Past.
- The all pictograms must be verified to make sure that they are authentic ones. Last time we have more and more falsed agroformations in Poland and neighbor lands: Czech Republic and Slovakia – which you can see at the label above;
- We must still keep and develop collaboration and cooperation with our colleagues abroad, change information and ideas, theories and so on, organize meetings and conferences on the crop circles topic. In our country we have two such annual meetings: the *UFO Forum* in a Spring and the *Forum of the Crop Circles* in an Autumn. The both conferences are always held in Wroclaw .

The Forum was closed at 10 o'clock PM. We returned to our homes. Driving our car on a highway between Wroclaw and Wiazow we watched a very beautiful night sky and a very bright, green meteor, which had crossed skies on a background of the Orion constellation. We took it as a good omen.

We came to Jordanow – where we live – at 02:30 hrs in the morning. Now we wait for mysterious formations on the snow and ice surfaces in the Winter season. We shall inform you about them as quick as possible.

A present day situation is not so clear. The AS have appeared in a large number (140!) in Mlyny village. Many of them were made by *circlemakers*. Now there work a group of researchers from the FNC Wroclaw, UFO Independent Research Group of Torun (**Mr. Leszek Owsiany** and **Mr. Jacek Kozlowski**), Stan Barski's group and some independent researches. The first three groups are honest and reliable and we can relay on results of theirs researches. The rest of the quasi-ufologists, which operate there, can not be named as real researchers. They represent a mixture of the New Age movement, strange mystical cults and parapsychology. Many of them are not mature mentally or even mentally sick persons. But they are the most noisy clients of the radio- and TV-stations. Mlyny is a magnet, which attracts the all kind of mentally sick people and people, who want to survive unusual adventures. That makes the great difficulties especially for the real UFO researchers...

And it is a last relation about phenomena, which may be related to the AS.

### **CE-0 WITH A PHANTOM OF THE MICKIEWICZ STREET**

By *Robert K. Lesniakiewicz*

This story took its place in Jordanow , Poland (GPS: 50°05'59".88 N - 20°22'59",88 E) on Jul. 13th, 2005. There are two young (15 years old) heroin of this story: Miss **E.W.** and Miss **E.F.**- both are students of the Jordanow's Gymnasium.

In that day, they sat on steps to an entry of the house number 50 - their lovely meeting point - at about 10 o'clock pm - see ill. 1 In one moment they notice an appearance of thin and dark person, who came slowly towards them. It was a man but the both witnesses were not in the able to give more detailed signalment of that figure. They watched him. The man came to the entry of the fence and got into it. In the next second it literally disappeared: the witnesses said that he had vanished like a smoke or fog under a wind's blow... The girls got terrible shock. Miss E.F. ran away to her home - the number 50-bis on a plan. Miss E.W. got her cell phone and called her mother - Mrs. **M.W.** (40 y. o.) asking her for help. Mrs. W. came on a scene and fond her daughter in a shock state. She brought her to her home - number 111 on a plan, and the witness told her hers story about the man, who had disappeared. In the next day, they informed me about the incident. By the way, I also witnessed the girls' reaction, because they sat vis-à-vis windows of my home.

I think that there might be one of three possibly events:

1. Unknown man was a client of the two speak-easies (under the numbers 34 and 36), who crossed the street and disappeared from a view of the both girls in an unguarded moment.
2. Unknown person came in the possessions number 111 and 45, jumped through the fence and went to fields and meadows behind it.
3. The both girls saw a ghost of the Miss W.'s relative - Mr. **W.L.** (60 y.o.), who had died one day before...

Explanation #1 and #2 are not so credible, because there were many dogs in and at the all houses. They should bark on the every stranger, who came there. The dogs were calm...

Explanation #3 is more possible, because in that region (called by me as the "Ghostland") is very rich with such legend and stories, which are a part of the local folklore. There are many relations about ghosts of dead people, who visit their relatives after their death. But in such cases the all domestic animals are uneasy: dogs bark and howl, cows roar, pigs scream, etc. etc. We did not noticed such behavior in that evening.

And there is the fourth explanation - the both girls saw an humanlike ALF but without the UFO. Miss E.W. watched the UFO (NL-type) some days ago – two weeks sooner – on Jun. 29<sup>th</sup> at 02:11 hrs. It is quite possible, that those both cases have a common source - the Aliens and Theirs presence on this planet... During my family's meeting yesterday (Jul. 16th), I got to know that there was found a place of the circular pressed loupine (like in the famous Crop Circle ) about 100 meters far from a place of the incident. I got my camera but I was not in the able to make a photo, because the lupine field had been plugged by its owner. So then, it is quite possible that the both girls saw the Alien, who visited a place of the UFO-landing or the UFO influence on the Earth's living matter.

Was this incident related to the unknown forces, which make the “true” AS?

---0000000---

That is the end of my report. If you want to know more about the AS in Poland , you may send a message to private persons and research organizations as below:

1. Mr. Stanislaw Barski – [stanislaw.barski@globster.pl](mailto:stanislaw.barski@globster.pl)
2. UFO IRG Torun – [dingir@interia.pl](mailto:dingir@interia.pl)
3. FNC Wroclaw – [ufofnc@kn.pl](mailto:ufofnc@kn.pl)
4. CBZA Krakow - [centrala@ufo.internauci.pl](mailto:centrala@ufo.internauci.pl)

Jordanow, Jul. 22<sup>nd</sup>, 2005

---

<sup>[1]</sup> IC = Ice Circles, CC = Crop Circles, CP = Crop Pictograms, GC = Gras Circles.

<sup>[2]</sup> In Poland we have two channels of the Public TV: TVP-1 and TVP-2. they are also supported by the local branch of the Public TV usually marked with the “ 3” - f. ex. Krakow TVP-3, Rzeszow TVP-3, Wroclaw TVP-3, and so on.

<sup>[3]</sup> In this number are 155 AS in Mlyny.

<sup>[4]</sup> They are mushrooms from the *Lactarius vellereus* and *L. piperatus* species. Moreover in Poland we had also circles of the *Entoloma sinuatum* mushrooms in a place of the CE2 in a village of Spytkowice and Olsztyn at Czestochowa..

<sup>[5]</sup> I received a message from Czech Republic about trace of the CE2 in the Nowa Paka village, where appeared mushrooms from the *Agaricus campestris* species.
