

FIRST AGROFORMATIONS IN POLAND

by Ing. Robert K. Leńniakiewicz (CBZA)

The first Agro-formation aka Crop Circle (AS) appeared in Poland two weeks ago in a small willage Nieznanowice at Wloszczowa - $50^{\circ}49'06''N$ - $020^{\circ}01'48''E$ - in the Swietokrzyska Province. Mr. Adam Piekut of Mogilno, who researched this Pictogram. He came to a conclusion that that AS composed from three circles joined by patches had been made by cropmakers not by the UFO. More info you can find in the Wylatowo Common site - <http://wylatowo.pl/news.php?art=788>.

Another ASs appeared in the Kujawsko-Pomorska Province of Poland and I was informed about them by Mr. Leszek Ostoja - Owsiany of the IndependentResearch Group (iRG) of Torun. The first AS was found nearby a town of Inowroclaw - $52^{\circ}48'00''N$ - $018^{\circ}16'06''E$ on Jun. 30th, 2008. There were two ASs in the wheat.

Both of them were made very irregular by unknown forces. But the iRG members are convinced that they are a hoax and were made by the unknown cropmakers.

Another new AS was found two days ago (Jul. 3rd) by the iRG collaborators almost on a suburb of the Torun town - $53^{\circ}00'58''\text{N}$ - $018^{\circ}36'13''\text{E}$. The AS was also made in the wheat. Mr. Ostoja - Owsiany states that the another AS was produced by cropmakers too.

Today, (Jul. 5th) I got from famous Polish ufologist Mrs. Emma Popik two photos of the UFO which was seen, photographed and video recorded by many eyewitnesses, who stood on a shore of the Motława river in Gdansk. Unfortunately, it was not real UFO at all! It was an artistic performance by British artist Mr. Peter Coffin. The UFO was hung under a helicopter. As Mrs. Popik said - "the UFO made a big impression to people".

As you can see - the "cucumber season" has started in Poland now. I will inform you about the next UFO events in my country in this Summer.
